P R O F I L E

I am an open minded and customer oriented student, who thrives in an energetic environment filled with smart, motivated and awesome people. I have been working in a startup environment for the past 1,5 years and have been focusing on front-end development. Currently, I am looking for perspective: how the front-end development workflow in single products is carried out in comparison to consultation and multiple concurrent projects. I want to be challenged, your move.

E D U C A T I O N

Master of Science, Aalto university, fall 2014-

MILITARY SERVICE

Pori Brigade, Finnish Rapid Deployment Forces — 07/2010 - 07/2011

HOBBIES

As a contrast to studying and working I relax by singing and occasionally playing the guitar. Since January 2012 I attend the Wiipurilaisen osakunnan laulajat (WiOL) choir, where I have been the vice chairman of the board since July 2013. I try to keep fit by jogging and playing badminton with my friends. I also enjoy photography, especially with company. My spare time, whenever I can gather some, goes into pet web projects.
